

Mid-Cert Hover Messages for Planning the Flowsheet

Reminder Tip:

Anywhere you see disabled options (grayed out) in KWIC, hover your mouse on those items and informational messages will appear. You can use these messages for a number of things to help you. One informational message you receive can help you complete flowsheets for clients. Below is an example of a one month old infant's hover message received from the disabled Mid-Cert Quick Link. As you can see, it shows you the correct timeframe when a Mid-Cert can be completed based on the policy. You can then use this message as an aid to help complete flowsheets for the certification period.

The screenshot shows a web interface with a sidebar on the left and a main content area on the right. The sidebar has a section titled 'Group Members' with a search bar and a button 'Add New Group Member'. Below this is a list of options: 'Quick Link for', 'Mid-Certification', 'Dual Participation', 'Anthro Measures', 'Blood Measures', 'Health Interview', 'Risk Factors', 'Nutrition Education', 'Referrals', and 'Immunizations'. A red arrow points to the 'Mid-Certification' option. A hover message box appears over this option, containing the text: 'The client must be between 5 1/2 months to 10 months of age to complete a mid-certification. 09/20/2015 to 02/05/2016.' The main content area shows a form for a client named 'Tobar' with fields for 'Gender Male', 'DOB 04/05/2015, 1 Months', and a 'Flowsheet' tab. Below the form is a calendar view for the year 2015, with months from February to October listed. The 'Mid-Certification' option is highlighted in the calendar for the month of May.

For more information regarding the Mid-Certification timeframes, please review policy [CRT 03 04 00 Mid Certification Appointments](#)
